THIRTY-SEVENTH YEAR

LIMA, OHIO, WEDNESDAY, OCTOBER 18, 1922

PRICE THREE CENTS

**W. J. HILER**  
Introducing Democratic  
Candidate for State  
Treasurer

William J. Hiler, Democratic candidate for Treasurer of State at the election to be held on November 7, 1922, was born at Zanesville, Ohio, April 21, 1884, where his parents still reside. His father has been an engineer on the Zanesville division of the Pennsylvania Railroad for the past 43 years.

William J. Hiler received a high school, business college and higher accounting education and has 21 years accounting and executive experience, including five years bank training.

Hiler's public service covers a period of eight years, four of which was during the Governor Harmon administration, with D. S. Creamer, state treasurer. As chief clerk Hiler handled corporation taxes, workmen's compensation insurance and appropriations.

It was during this administration an investigation of graft practices was made and suits brought against former public officials for the restoration of ill-gotten gains, resulting in the return to the state treasury of approximately \$184,000. Interest on state funds illegally deposited by the guilty officials.

It was also during this administration that the competitive plan for state deposits was inaugurated. This action increased the revenue to the state, from interest, tremendously and gave every bank in the state an equal opportunity to procure a deposit, instead of the funds being deposited with a favored few, as was the practice previously.

As a result the state collected during the last fiscal year the sum of \$2,402,175.85 in interest.

This plan of the state treasurer was made a law, not only for state funds, but for county, city, school, village and township funds as well and collectively earned interest during the past year in excess of ten million dollars. At its inception, Hiler had a large share in this economic reform, the greatest accomplishment of any state in the last 50 years.

The last four years of Hiler's public service was during the Governor Cox administration, with J. P. Brennan and Chester E. Bryan as state treasurers and in that capacity he personally handled all receipts and disbursements of the State of Ohio, amounting to millions of dollars annually.

With the knowledge gained by actual experience, Hiler comes before the voters at the November election, asking their support of his candidacy for Treasurer of State and pledging a continuation of the same conscientious and efficient service which characterized the administrations of the three state treasurers named above.

He is at present at the head of a business of his own, as a public accountant and auditor. He is a member of the American Federation of Musicians.

With his wife and four children, Mr. Hiler resides at Columbus. He is the possessor of an unusual personality, attracting friendships that are lasting. Hiler's motto is "Service." Among those who know him he is considered as representative of the highest type of American citizenship.

Competent, honest, industrious, courteous and with a desire to please under all circumstances, Hiler is making a strong bid for the favor of the voters of Ohio.

It is concluded that the name of William J. Hiler is adding strength to the Democratic state ticket.

**\$82,950 IN FINES**

Sum Assessed in Ohio During September Under Dry Act

COLUMBUS — (Associated Press) — The prohibition agents were on the job during the month of September, indicated by the large number of arrests and convictions during the month. Prohibition Director J. E. Russell declared in a statement issued today.

Tabulation of the results of the month's work, he said, showed that 1,000 men had been fined in the month of September, and 1,000 women. For the entire state, 11,000 men and 11,000 women were fined during the month. The fines assessed in Youngstown, he said, totaled \$7,300, an average of \$1,900 for seventeen counties. Russell said, in Cleveland \$18,950 in fines assessed in addition to \$23,295 and penalties of \$11,350.

Toledo had 39 arrests, 45 prosecutions, \$8,350 assessed in fines. Cincinnati had \$21,155 in penalties, 11,000 men and 11,000 women. Cleveland had 36 arrests, 36 prosecutions, \$16,950 fines, \$23,295 penalties and \$11,350 penalties.

# COUPLE MURDERED AT LOVE TRYST

## WHITE HOME HIT BY FIRE, WATER

W. Market-st Residence Damaged to Extent of \$2,000

## SPARKS FROM FLUE, CAUSE

Entire Roof Burned Away, Interior Inundated

Sparks issuing from a chimney at the residence of A. L. White, president of the Lima Kellogg Products company, 711 W. Market-st, set fire to the shingle roof Wednesday morning and caused a loss estimated at \$2,000.

Three fire stations answered the call sent in from a fire alarm box nearby at 8:30 a. m. The sparks flew in all directions and the roof was ablaze in six places when the firemen arrived.

Three lines of hose were laid. Owing to the briskness with which the flames were eating thru the roof and threatening the interior, it was necessary to throw the full load of the three lines on the roof for several minutes to "knock down" the flames.

The last vestige of fire was wiped out in 15 minutes, but water seeping thru ceilings, completely saturated half the 12 or more rooms in the house and caused far more damage than did the flames.

Weighted down by the weight of water, ceilings fell in and discharged water, ashes, plaster and other debris on to hardwood floors and valuable furniture, most of which could not be removed in time to prevent damage.

The first as well as the second floor bore the brunt of the inundation. Walls were water-soaked and textures covering furniture, draperies and other materials were seared by live ashes.

White had fully charged the furnace with a quantity of coal which was mostly mine run before he left for the downtown district. A few minutes later he was called back, the fire having made good headway by the time he arrived.

The loss is covered by insurance. White said. While not placing an estimate on the damage, Fire Chief Mack declared it may take at least \$1,500 to make needed repairs on the house alone.

TRAFFIC BOTHERERS  
The fire, occurring in the heart of Lima's west end residence district, attracted scores of curiosity seekers.

Much trouble was experienced by the fire department and Motor Policemen B. F. Watkins, in preventing hose from being cut. One auto driver, Merle Firman, of the Welch company, was cited to appear in criminal court on a traffic charge.

These difficulties have led to a suggestion that fire areas hereafter be roped off, and nobody except those with authority being permitted to enter. Chief Mack is considering the plan.

Mack reiterated his warning, after the fire, concerning the danger that arises from sparks falling on shingle roofs.

"Watch your dampers and controls and do not permit them to stand wide open after loading furnaces and stoves," he says.

WALLACE TO SPEAK  
COLUMBUS — Secretary of Agriculture Wallace will be the principal speaker at the annual council of county and state extension workers of Ohio State University here tonight.

# FUEL CONTROL FAILURE

## GLAND VICTIM

Joseph Wozniak, Chicago, World War hero, is the first victim of what police declare is a ring to provide human glands for rejuvenating old men. Wozniak tells of being chloroformed, taken away in an auto, and regaining consciousness in the street. Doctors say an expert surgeon removed the gland.

## EX-EVANGELIST IS CAPTURED

Escaped Convict Found in Home at Los Angeles

## OFFICERS NOT RESISTED

Famous Bandit Smiles and Calmly Surrenders

LOS ANGELES, (Associated Press) — Herbert Wilson, former evangelist mail bandit and convicted murderer, Adam Blazky, convicted murderer, and Guido Spignola, convicted robber, who broke jail here yesterday, were recaptured here today after 24 hours liberty. They were taken without a struggle in a home of a former convict.

The fugitives were taken in a house not far from where they abandoned the automobile which they had stolen. Information of their presence there was obtained early today by a deputy sheriff and Sheriff William Truger and a posse of deputies surrounded the residence and effected the capture with the same suddenness that the trio had surprised the pallers in their break for liberty yesterday morning.

The capture resulted from the use of plans Wilson had formulated for concealment after the attempted break last April, which was frustrated by sheriff's deputies and in which Herbert Cox, partner of Wilson, was killed. Wilson was convicted of murder as a result of three who escaped yesterday were captured in the place where they had planned to hide last April.

The same gangland the former evangelist had exhibited since he became known to the authorities was present in Wilson's greeting to the captors. There was no confusion and Wilson and his fellow fugitives peacefully surrendered when they saw the large number around the house. Wilson's first question concerning the condition of Turner Henry Purrier, who was knocked unconscious in the break yesterday morning. He smiled and expressed satisfaction when informed Purrier was not seriously hurt.

WOMAN ON TRIAL  
Mrs. Rosier Faces Charge of Killing Husband, Stenographer

PHILADELPHIA — (Associated Press) — Mrs. Catherine Rosier went on trial today charged with the double murder of her husband, Oscar Rosier, and his stenographer, Miss Mildred Reckitt, who were shot without warning one Saturday afternoon last January in Rosier's advertising agency, in the central section of the city.

The "unwritten law" will be invoked for Mrs. Rosier. According to the accused woman's testimony at the coroner's hearing she had known for three months at least that her husband and his stenographer had been intimate. She said further that her husband was desirous of divorcing her so that he could marry Miss Reckitt.

EX-CROWN PRINCE LL AMSTERDAM — Frederick Wilhelm Hohenzollern, former crown prince of Germany, is confined to his residence at Wieringen with a sprained ankle he sustained in a motorcycle accident.

# COAL DRIVEN OUT OF STATE

Lima Dealers Attack Ohio System of Administration

## PRICES REMAIN UNCHANGED

Supply Here Gradually Decreasing, Reports Say

Operation of the Ohio Fuel Administration as far as Lima is concerned has so far been a complete failure, coal dealers said Wednesday.

Not a single pound of coal is being offered by Ohio mines within the state, Cliff Wood, Cliff Wood Fuel & Supply Co., declared. Mine operators say they have orders booked for the present month at least and are not looking for more orders.

This leaves West Virginia and Kentucky as the only source of supply open, Wood said, and what coal is finding its way into the city is coming from mines in those states.

Under the Ohio fuel act the coal mined in Ohio is controlled and a minimum price set only where it is distributed within the state. If it is sold outside of the state the minimum price does not hold.

While no definite statements have been made by the coal operators it is understood that as soon as the minimum law went into effect the Pennsylvania and Indiana consumers began bidding for the supply.

As there is a shortage in each of these states the Ohio coal is in demand and all that can be shipped will be taken. At the same time the Ohio consumers will be forced to buy coal from other states at advanced prices.

Dealers' margins in Lima are at the rate of \$2 a ton instead of \$1.70 a ton as previously announced. The \$1.70 rate applies to Allen-co outside of Lima.

Larger margins are necessary here because of the greater investment necessary, the greater service desired and the longer distance the coal must be hauled, dealers say.

Freight rates are also considerably higher than those previously announced. While some Ohio coal might be shipped into Lima at a freight rate less than \$2 a ton the majority of the coal will be above this figure especially where it is shipped from near the state line or some other state.

Because of the fact that Ohio coal is going out of the state and it is necessary to purchase fuel from other states the cost to Lima consumers will be about the same levels as before the fuel administration went into being, being sold in Lima at \$10 a ton or more, depending upon the quality, and very little hope of an immediate decline is looked for, Wood said.

A million dollars has been appropriated for the work of coal administration by the state. Dealers point out, yet with all this expense the coal supply is decreasing rather than increasing.

## BISHOP TO SPEAK

Dr. Fred B. Fisher Scheduled for Talk to Methodists

Bishop Fred B. Fisher, of the Methodist Episcopal church, will speak in Lima at a banquet at Trinity church on Tuesday night.

Bishop Fisher, had been stationed in Calcutta, India, and has been assigned to make a tour of Ohio in the interest of the "I Will Maintain" organization of the Methodist church.

He will speak on his thrilling experiences in India, and his travels and missionary activities among the Hindus.

# WRITER WEDS STEEL MAN

Mrs. Frances W. Eljah, fiction and scenario writer and famous war worker, has left for a honeymoon in South America, following her marriage at New York to A. N. Diehl, Pittsburgh steel man.

## CITY OF DAYTON TO VOTE ON COMMISSION PLAN

DAYTON — Assurance that Dayton, the first large city to adopt the commission form of government, will vote in November on amendments to the present city charter which would bring the council form back, was given today when Common Pleas Judge Snediker refused to grant an injunction to keep the issue from being placed on the ballot.

Backers of the commission form of government, claimed that the amendments are illegal as they, instead of amending the commission charter, will serve the effect of annulling. The issue was raised in September when more than 6,000 citizens petitioned for a vote on the question.

## GEORGE WINS IN SENATE RACE

Nominated by Georgia Voters to Succeed T. E. Watson

ATLANTA, Ga. — (Associated Press) — Walter T. George, former justice of the state supreme court, was overwhelmingly nominated as candidate to become senator to the late United States Senator Thomas E. Watson in yesterday's special Democratic primary, according to complete unofficial returns compiled by the Atlanta Constitution today.

The victory of George marked the second defeat of Governor T. W. Hardwick within as many months and, according to political observers, showed that the Watson block of votes estimated at 50,000 at full strength, remained intact and voted almost solidly for the former justice.

Of the 160 counties in the state, George carried 125, giving him some 96 more convention votes than required for nomination. Governor Hardwick carried 28 counties with 76 unit votes. Seahorn Wright, seven counties with 22 unit votes and John R. Cooper none, the newspaper's figures showed.

The state Democratic convention meets in March, October 28, to confirm the results of yesterday's primary. The convention nomination is considered equivalent to election in general election November 7.

## PURSE IS STOLEN

Magazine Solicitor Blamed for Theft From Woman

While she was busy in the kitchen a few minutes drawing a pan of cookies from the oven, a magazine solicitor whom she had met at the door, darted into the house and took a pocketbook containing 70 cents and a gold watch from a table, Mrs. P. E. Switzer, 617 Highland-st, reported to police shortly before noon Wednesday.

When she came back to the door the solicitor hastily murmured an excuse that he would not bother her longer, and started down the street. Mrs. Switzer's fears were aroused when he did not stop at her neighbor's house, she said.

The valuables, placed on the table temporarily while Mrs. Switzer prepared for a trip down town, were visible from the door.

# THEORY IN HALL, MILLS CASE

More Passionate Letters Received by Authorities

## RECTOR CALLED "DARLING"

"Did You Not Feel Me Purring?" Woman's Note Asks

(BY GERALD P. OVERTON)  
NEW BRUNSWICK, N. J. — (United Press) — Detectives today busied themselves checking up on all statements made by Mrs. Edward W. Hall and her two brothers as to their whereabouts and their movements on the night of September 14, when the Rev. E. W. Hall and Mrs. Eleanor Mills were slain.

Prosecutor Beckman is making public in installments the red-hot letters of Mrs. Mills to the rector, which were found scattered on the ground beside their bodies. They seem to indicate beyond doubt that the pastor and the choir singer were involved in a very passionate amour and that they were killed at a love tryst.

The widow, with her two brothers, William and Henry, the former an "eccentric," and the latter a vigorous, short, millionaire — when questioned at the courthouse, accounted for their whereabouts on the murder night.

Every detail of their statements is being thoroughly gone over by the investigators.

Mrs. Hall, thru her attorney, Samuel Puffer, states she was not aware that her husband was having an affair with Mrs. Mills. It was stated that she even doubts the genuineness of the love letters, which have been given out.

MORE LOVE LETTERS  
NEW BRUNSWICK, N. J. — (Associated Press) — A second batch of the letters said to have been written by Mrs. Eleanor Mills, wife of the church sexton and choir leader, to the Rev. Edward Wheeler Hall, was made public today by the authorities as they continued their efforts to solve the mystery of the slaying of the couple.

Addressed and unsigned, the letters are filled with terms of endearment. In them the minister is often referred to as "sweet, adorable baby-kins." They speak of "a love nest," of a woman's dreams of "true love" and describe the varied moods of a woman "loved and loving without the conventions."

Excerpts from the letters follow: "Dearest, dearest boy. Wasn't I happy to find a sweet note, for I didn't expect you would risk leaving one for me yesterday. Such delicious letters."

"My darling how well you seem today. x x x x I am tired. I want to be x x x x and rest for hours."

"Oh, you sweet adorable babykins of mine."

"The note I left yesterday was crumpled but I had to hide it in my small orange purse, as I met him. x x x x I'd build a waiting love nest x x x x. People would mean nothing. I had rather watch the bugs and ants as they crawl along. Don't you love to watch an ant as it creeps along, honey?"

"And darling, how sweet x x x x I long for our love to be the truest — ideal — as pure as we can make it, for then it is truest to nature."

"x x x x I know I'm a crazy cat x x x x."

"Charlotte talks — then Don asks questions, then amys so how can I write?"

"Darling mine — did not you feel me purring x x blissfully contented? And close to you too?"

"Sweetheart, my true heart, I could crush you." Oh, I am wild tonight."

"One time I told you I hated your work, I hated your parish. I guess it is because I am jealous of it because it must come first in your life. Not because of conventions, but because you love it so. Oh, I know it because you are true priest — born for it."

"I have the greatest of all blessings — a noble man's deep true eternal love and my heart is his — my life is his — all I have is his x x x x I am his forever."

"I will hate the winter nights; then I dream of curling in a chair with you — oh, what dreams I have. Will it ever be?"

"I am holding my sweet babykins face in my hands and looking deep into his heart and reading there the message that makes me live — gives me strength and life."

STARTLING THEORY OF DUAL MURDER  
(Florence M. North, personal attorney for Charlotte Mills and leading woman investigator of the Hall-Mills murder mystery at New Brunswick, N. J., present today thru the United Press her startling theory as to the perpetrator and the means employed in the double killing.)

No investigator in the case has been more intimately connected than Miss North, who working with a large staff of trained operatives, is determined to run down the murderer of the mother of her client, pitiful child victim of the tragedy.

Miss North will continue her analysis of the progress of the investigation tomorrow.)

(BY FLORENCE M. NORTH)

## 22 CHURCHMEN AID RELIGIOUS MEET

Band Together to Underwrite Coming Evangelistic Rally

EXPENSES WILL BE \$10,000

Tabernacle on Way to Completion With Many Helping

Details of the financial plan for the tabernacle, which will be completed by the end of the year, were given at a meeting of the finance committee Tuesday night.

Members of the 22 churches banded together for the campaign will be asked to contribute to the expense of the tabernacle. This is a type of tabernacle and is not a permanent building. The plan is to erect a temporary building to house the tabernacle and other equipment.

It is estimated that the cost of the tabernacle and the various operating expenses will be about \$10,000. The plan is to erect a temporary building to house the tabernacle and other equipment. The plan is to erect a temporary building to house the tabernacle and other equipment.

Center framework of the tabernacle was erected Tuesday. It is the work of an unhampered, the whole framework will be completed by Wednesday night. J. J. Matthews, local manager for the tabernacle, said.

Presidents of many brotherhoods were working on the tabernacle Wednesday and representatives of Sunday schools will perform during the evening. A great amount of aid is being given by the Lima carpenter union, Matthews said.

Appointment of Harry Jones as campaign treasurer was announced following the meeting of the finance committee. Jones was formerly chairman of the finance committee but resigned to take over the treasurer. G. A. Horrocks has been appointed chairman of the finance committee and a representative from each of the churches is included on the committee.

## CITY WORKS WITH FUNDS LACKING

Diminished Force Maintained by Public Service Department

Lima's public works department is living on a hand to mouth basis with but very little money with which to operate, Vanein Miller, city engineer, volunteered Wednesday.

Bonlevard lights are being operated on the present time on a full schedule although there is no money in the fund to pay for the current consumed and none in sight.

Another worker must be on the job at Forest park to see that the animals and equipment there are properly cared for. The city park fund has been depleted for some time, however, and Miller does not know where the money will come from.

A small sum received from automobile license holders is possibly to place an emergency street repair man at work. This will care for the more urgent demands for the present.

Painting of the boulevard light poles in the city has been completed, Miller said. Numbers will be stored on the men and then the workmen will be released.

## DESERTION CHARGED TO WIFE IN DIVORCE PLEA

Charges of desertion were made in a divorce petition filed in common pleas court Wednesday by George Myers, naming Mrs. Ethel Myers, Denver, Colorado, as defendant.

The couple were married in 1912 and have no children. More than three years ago the wife, becoming restless with marital existence, wandered away to seek her fortune in the west, the petition says. She resided in Denver when last heard of. Plaintiff asks that she be barred from power in his holdings.

PROTEST ASSESSMENTS  
Protests regarding the paving assessments at Kordworth, which have been filed with the city commission, will be augmented by many more, it is indicated. A board of equalization will be appointed at the end of the 30 day period during which complaints may be filed. C. A. Bingham, city manager, says, and a reapportionment. When the report of the equalization board is made the property owners will be compelled to abide by it, Bingham said. The property owners petitioned for the paving and they will have to pay for it.

REPORT EXPECTED  
The findings of the committee investigating charges filed by Dr. F. W. Welly against R. L. Trubey, alleging misconduct in office, may be laid before Judge Fred C. Becker in the form of a formal report late Wednesday, according to William H. Leeds, chairman.

Members of the committee were scheduled to hold a final meeting Wednesday and prepare their report to the court. Testimony taken in the matter by the committee was completed last week.

FUNERAL FRIDAY  
Funeral services for Albert J. Ackerman, a former Lima resident who died Sunday at his home in Lima, will be held Friday at 10 a. m. in Lafayette cemetery. Burial in Lafayette cemetery.

## STATE ROADS ARE BEING PLANNED

Extensive Addition to Road System is Proposed

A system of roads traversing the state of Ohio, from east to west and north to south is being worked out by the state highway department with the view to eventually replacing the old inter-county highways.

The idea, as expressed by Governor Clements division engineer is to cut down the number of short roads, and combine them into state routes which "go someplace."

The number of inter-county highways in the state now runs up to around 560.

By laying out new routes the number of roads is cut to under 100. The idea is to erect long roads while the present inter-county highways are made up of series of short roads.

The new roads as laid out will mean little or no new construction for some years. The routes will follow roads already in existence. Advantage will be taken of any improved sections already existing.

Ground aluminum markers will be used to designate the state routes.

The state will take over these then routes and maintain them. As the individual counties decide, the state will meet them half way in the matter of aid, as on main roads at present.

This system planned is not unlike the state trunk line roads of Wisconsin and the state roads of Indiana. Both states have proven the benefit gained by the state creating a new work of highway, and paying them under state control.

Each road will be numbered, and the markers showing the numbers will be erected at intervals of a mile.

## FESS STRIKES AT JIM COX

Republican Senatorial Candidate Fails to Mention Davis

The Republican administration will stand on its record of achievement in seeking preferment from voters for the new change in government. Shuman D. Fess, Republican candidate for U. S. senator from Ohio told an assembly at Memorial hall Tuesday night.

Fess assailed ex-Governor James M. Cox of Ohio on his utterances with respect to the league of nations, delivered in New York and Cleveland after an European trip. If the league question arises again in 1924, the Republicans welcome it, he said.

He lauded Congressman John L. Cable, Cable's rights of citizenship measure is a monument to his ability, according to the speaker.

County Chairman H. E. Garling prefaced the meeting by reading a letter from Speaker F. H. Gillette of the House of Representatives, declaring Cable is a most successful congressman.

Fess did not mention Governor Harry L. Davis once during his address but recommended Carmel Thompson, Republican candidate for the gubernatorial position.

"I might as well cast off my cloak of modesty and tell you that I'm going to the U. S. senate," Fess said.

DIES AFTER OPERATION  
Albert Yeakum, 60, of Leipsic, died at the City hospital Tuesday night, following an operation. He had been a patient there for more than a week. Funeral services and burial will take place at Leipsic, where he was born.

FUNERAL SERVICES  
Funeral services for George Burkhardt, retired farmer, Shawnee, who died Sunday, will be held Friday at 10 o'clock at St. Matthew's Lutheran cemetery, near Cridersville. Burial will be at St. Matthew's cemetery.

Edward Jones to the Bluffton, N.C., Co., part of lot 227 Bluffton.

Hallowe'en Tally Cards at Hunter's Drug Store, 49 Public Square.

## MAINLY ABOUT PEOPLE

### FOR DRILL TEAM

Mrs. Clyde Williams, of 623 W. Kibbey, will entertain with a euchre party at her home Thursday evening for the benefit of the Washington Drill Team of the city.

### HUSBANDS AS GUESTS

East Worthington's society will entertain with a gathering in the Masonic Temple Thursday evening for the pleasure of the members and their husbands, the post mistress and their husbands and the post mistress and their wives.

### DECISION DELAYED

Decision in a suit brought by Nixon as property owner to restrain the city and county from collecting assessments on lots situated in the Nixon sewer district, is being held up in common pleas court to allow the city to present an exhibit to the court.

Property owners in an application for an injunction, alleged that the assessments in several instances exceeded the property valuation.

### LEAVES \$10,000

Estate of Sarah Doyle, Richmond, who died a week ago showed a valuation of \$10,000 worth of real estate when offered for probate before Judge J. H. Hamilton Wednesday. Mrs. Agatha O. Odenhofer was named executrix by the court. Ambrose Doyle, Detroit; Lawrence Doyle, Minneapolis; and J. C. Doyle, Buffalo, are joint beneficiaries of the estate.

### FAMILIES AS GUESTS

Baltimore and Ohio Veterans' association will entertain their families Wednesday evening in Oddfellows hall, corner Main and Wagon streets.

### CARD PARTY

Lima Chapter No. 6, A. L. U., will entertain the members and their friends with a card party Thursday afternoon in Morris Arcade.

### CHURCHILL INITIATED

A fraternal held its regular meeting at the home of Truman Mikesell, of E. Jamesonway, Tuesday evening. An active business session was held and Leslie Churchill was initiated into the fraternity.

Next meeting will be held Tuesday with Dale Johnson, of State-st., confining EAOI NU NU NU NU NU.

### HIGHWAYS INSPECTED

An inspection of state and highways under construction in Allen county was undertaken Wednesday by a party composed of N. W. Wilbur, federal engineer; J. P. Shoenager, state chief of construction; Grover F. Clements, division engineer; and Donald Keltia, resident engineer.

The officials expressed satisfaction with the progress being made on the various sections. Asphalt and macadam pavements are all progressing toward completion. Brick laying on the Dixie Highway is proceeding slowly, on account of the irregularity of shipments.

### AMBITIOUS YOUNGSTER

Comparisons are odious, but oftentimes they speak louder than words. Acting on that theory, Andrew Schultz, an instructor at Central junior high school, asked his

peeps to collect data for graphs and one youngster appeared in the criminal court office Wednesday to obtain the number of arrests a year before and a year after prohibition in the Washington Drill Team of the city.

LESTER HERE FOR VISIT  
Sig Lester, owner of the Lima and Normal Hotel, is spending a few days in Lima before leaving for California for the winter. He has not fully recovered from his accident of several months ago.

REGISTRATION FRIDAY  
Voters whose names are not on the registration books will have their last chance to become eligible to participate in the election Nov. 7, on Friday and Saturday.

Registrars will be stationed at the usual polling places in every precinct in the city to register every voter who is qualified.

WORK RESUMED  
Work on the Delphos-Fort Jennings road, which has been at a standstill due to a sink down in a quarry supplying stone, has been resumed. The road two-thirds of a mile long is being constructed under state aid by George Walther, of Allen County commissioners may award Walther a contract for constructing a continuation of the road, inside the city limits. The section inside the limits will be paid for by the county. Walther bid \$2,400.

LIPPINCOTT DIES  
Prominent Farmer Succumbs to Sudden Heart Attack

John E. Lippincott, 67, retired farmer, died suddenly at the home of his daughter, Mrs. I. R. Sulder, 171 Danway, Tuesday, from organic heart trouble.

He was born in Aughazee, and was well known throughout Wapakoneta and vicinity.

He had been making his home with his daughter for some time, after retiring from active work in farming.

He is survived by three sons, Walter and Clyde of Perry, Roy of Lima, and one daughter, Mrs. I. R. Sulder, at whose home he died.

Funeral services will be held at the Perry Chapel, Perry, at 2 p. m. Burial will be at Woodlawn.

Complete line of Tally Cards at Hunter's Drug Store, 49 Public Square.

## WOMEN WILL HEAR "CANDIDATES"

Plans Complete for Y. W. C. A. Mock Election Tonight

INTEREST RUNS HIGH

"Political Rally" Will Precede Mimic Balloting

Interest in the state gubernatorial race has reached fever point, platforms of the respective candidates have been scanned with critical eyes and women voters are taking deliberation in their choice. They especially have shown marked enthusiasm in their partiality towards candidates, necessitating special arrangements to sway their opinions.

"Carmel Thompson," Republican candidate for governor and "A. V. Donahay," his democratic opponent, will speak from the same rostrum Wednesday evening at the Y. W. C. A. in appreciation of the interest maintained by the women in politics.

Unfortunately neither candidate would probably consent to speak at the same time, so the Industrial Department of Y. W. C. A., in charge of Miss Grace Reynolds, secretary, has done the next best thing and obtained proxies, who will impersonate the absent candidates.

Miss Madge Mowery will speak as Carmel Thompson, and Vic Donahay will have an opportunity if he is in this vicinity to hear Miss Adella Crawford, pronounced his policies. These will be the high lights at the "Y's" mock election, which will be held at the "Y" rooms, Wednesday evening.

All the earmarks of a regular election will be present when the balloting takes place, also "Y" officials state that voting "early and often" will be strictly tabooed.

Mrs. Frank Bell, president of the League of Women Voters will have the task of stating the Republican and Democratic platforms.

Miss Edna Rieger will impersonate Judge Theodore B. Allen, of Cleveland during the speeches before election. A contrast can be had by those present when the real "Judge," speaks before the League of Women Voters, Sunday afternoon at Memorial Hall.

## T. R. FAY DIES OF HEART TROUBLE

Detention Hospital Superintendent to be Buried Friday

Theodore R. Fay, 62, superintendent of the Detention hospital, Bath, died at the hospital Wednesday morning from heart trouble.

He had been ill for three days. He was born in Wooster, Mass., October 19, 1860, death calling him a day before his birthday.

He is survived by one son, Ray, at the Detention hospital, two daughters, Mrs. Eva Archer, 323 W. Haller-st. and Mrs. Catherine Kimball, 452 N. Jackson-st.

In addition to his immediate family, he is also survived by one brother, Walter Fay, of Rhode Island, one sister, Mrs. Lena Kimball, E. Peabody, Mass., and 10 grandchildren.

Funeral services will be held at his residence at the Detention hospital, Friday at 2 p. m. Burial will be at Woodlawn.

Complete line of Tally Cards at Hunter's Drug Store, 49 Public Square.

CRISTO

## KILLING FROST IS PREDICTED

Heavy killing frost is scheduled to strike down upon Lima and vicinity with the full force of pre-winter fury.

The weather man issued this announcement Wednesday with the added prediction that it would descend before the night season had expired. The weather, he says, will be clear and cool with the lowest temperature of the season to be registered by Thursday morning.

A gradual increase in temperature will be noted during the day Thursday, his study tells him. There will be no marked warm weather however, if indications are correct.

Overcasts will probably come in to the full strength of popularity before the end of the week.

## CRIPPLES AIDED BY CLING

Expert Explains Cases Under Auspices of Lions Club

Treatment for 15 of the cripples of Allen county which would make possible their engaging in some kind of occupation was prescribed by Dr. Edwin W. Ryerson, Chicago, at a clinic held in the Elks' Home, Tuesday.

A minute examination was made of the various cases and the assembled members of the Allen county Academy of Medicine were told of treatments which would prove successful in each case.

Bloodless surgery as introduced into the United States by Dr. Alfonso Lorenz was demonstrated at a clinic at the City hospital at 7:30 p. m. Children are especially susceptible to this treatment, Ryerson said.

A banquet at the Elks' Home for the cripples, a luncheon for members of the Lions club was a feature. Dr. Ryerson addressed the doctors on the subject, "Infantile Paralysis" at 8:30 p. m.

Arrangements for the clinics and the banquet over in the hands of Dr. E. C. Venzling, Dr. A. N. Wiley and R. E. Ashley, a committee from the Lima Lions club.

## BIKE RIDES END

Traffic Law Affecting Kiddies, in Operation Thursday

"Gimme a ride on yer bike." Lima school children owing bicycles will not be able to yield to this plea from their less fortunate chums beginning Thursday when the new traffic law goes into effect.

Under the provision of the law passed by the city commission bicycles and motorcycles are assigned to carry one person will be barred from carrying double.

This means that the joy of riding on the handlebars as has been experienced by kids for many years will be banned within the city limits and that many of the sturdy lad will walk to school rather than ride.

Driving of automobiles by persons under 16 years of age will also be prohibited by the ordinance. Until the present minimum age limit has been 14 years.

Heavy traffic on city streets and many dangers arising from the operation of automobiles by youthful drivers and the practice of handlebar riding brought about the passage of the ordinance, C. A. Bingham, city manager, says.

## DEMOCRATS PLAN MANY MEETS

Donahay to Make Second Visit to Allen-co

Plans for holding Democratic meetings in all portions of the county at intervals during the remainder of the campaign were announced from Democratic headquarters Wednesday.

Demonstrations will be made at Delphos, Saturday night, with a joint county meeting of Democrats of Van Wert-co and Allen-co participating.

A. Vic Donahay, nominee for governor who will be the principal speaker, will make his second campaign appearance in the county. Deplie inclement weather, Mr. Donahay drew a capacity audience at Spencerville, on his first visit here his address at Delphos promises to draw even larger numbers of voters.

On Monday night, announcement was made by Earl Ludwig, chairman of the Democratic speakers, party orators will invade Richland-tp. for an address at Bluffton.

Former-Governor Charles Haskell of Oklahoma, and Judge Ken Hughes, of the district court of appeals will head an imposing list of speakers who are to appear on the platform.

Other meetings around the county are being arranged, Lima being included in the number.

## TWO FINED FOR BEING DRUNK, ONE CAGGING

Three arraignments took place Wednesday in the police court, two were fined guilty to drunkenness being fined \$15 and another who admitted cagging given a penalty of \$25.

Those admitting intoxication were J. N. Williams, 40 S. Main-st. H. J. Blalock, 25 Madisonville, Tenn., and James Long, 19, Oklahoma.

# WEST TURNS TO NEW INDUSTRY

## California and Arizona Become Big Cotton Producers

### MILLS ARE TO BE ERECTED

#### Forbes Writes of Development in This Line

(BY C. C. FORBES)  
NEW YORK — (Special) — The west is a veritable Pandora's box. You never know what next will come out of it.  
Here is one to me—and it is probably the most important of them. I have just gotten the facts from a California banker who knows the cotton business and its significance in the west better than any other man in the country. J. Dabney Day, American representative of the First National Bank of Los Angeles, a Texan, who has been in the cotton business since 1900, and who has raised among cotton and land much cotton business during the many years' banking experience in Dallas before he was associated with Mr. Robinson, head of Los Angeles' largest bank, two years ago. One of the first services rendered by Mr. Day on being transferred to the Los Angeles office was to examine the cotton business of the Los Angeles Clearing House Association, and chairman of the Cotton Committee of the Los Angeles Chamber of Commerce—a position which has superior knowledge of cotton.

After the activities of American Bankers Association convention I had a long talk with Mr. Day and I know that he says concerning the development of the cotton industry in the Pacific-Southwest will interest and amaze millions.

"In 1912," said Mr. Day, "California produced only 10,000 bales of cotton. Arizona even less. In 1920 Arizona and California, including the Imperial Valley in Mexico, produced approximately 250,000 bales and the 1922 production, in spite of the very serious reverses of the recent business depression, probably will exceed 200,000 bales.

In the twelve years, Southern California, Arizona, Lower California and the San Joaquin Valley will be producing between \$150,000,000 and \$160,000,000 worth of cotton annually. The value of the present production is approximately \$35,000,000 to this year.

"The marketing center of this cotton industry is Los Angeles and Los Angeles harbor. Shipments to the Los Angeles harbor increased from 14,043 bales in 1920 to 10,086 in 1921 and the 1922 total will probably exceed 150,000 bales.

"Shipments to Japan increased from 665 bales in 1920 to 66,113 in 1921. The only one example of the Oriental demand which promises to provide an ever-expanding market for Pacific-Southwest cotton.

"The maximum cotton acreage in this territory has never exceeded 250,000 acres, but there are some 12,000,000 acres well suited to the production of cotton—more than one-third of the total present-day cotton acreage in the entire United States.

"Due to the long dry growing season it is impossible to do the damage. Also because of the climatic situation, the bloom of our cotton is recognized as superior to that of all other cotton, and it comes to a dead white. Its quality means low percentage of waste in ginning.

"This is the one section in the United States capable of producing the staple, or Pima cotton, on a satisfactory basis. With a world-wide scarcity of long staple cotton, the possibilities cannot be overestimated.

"Again, because of climatic conditions and the excellent growing situation both California and Arizona always rank among the first three states in the union in per acre cotton production. This is not unusual for an acre to produce over half a bale or even three-fourths of a bale.

"Every effort is being made to encourage this industry to expand. There is a higher daisy cotton company at Los Angeles harbor which has operated at a half a minute; also excellent storage facilities at reasonable rates. Compresses have been installed at Mexico to handle

the Imperial Valley crop and at Phoenix, Arizona, to handle the Salt River Valley cotton in Arizona. Important brokerage houses have established agencies in Los Angeles.  
"Several Japanese concerns, formerly operating in Texas, have moved to Los Angeles because of the ease in supplying Japanese markets from this district.  
"France recently bought more than 8,000 bales of Imperial Valley cotton whereas in 1921 only 230 bales were taken—the first France ever purchased from this district. Mexican mills located on the east coast and operating in territory where production is declining recently purchased Pacific-Southwest cotton for shipment thru Los Angeles harbor to keep their mills operating.

"Inasmuch as American cotton production seems likely to fall below normal requirements in the next few years, and seeing that the Pacific-Southwest provides the only overland cotton section of the country, that prices promise to be profitable, and that the tendency now is for the coordination and unification of the economic activities of the Pacific-Southwest so that each section will produce those materials for which it is best fitted, there is every reason to believe that the expansion of the cotton growing industry in this district within the next decade will astonish even the most sanguine.

"Already serious study is being given to the building of cotton mills in the metropolitan areas of Los Angeles, and this district doubtless shortly will develop a rather important textile industry, fabricating the cotton produced here. Certain important cotton mill-owners in the Eastern section of the United States have already carefully analyzed the situation with a view to establishing mills in the Pacific-Southwest.

"In short, all factors are favorable to industrial production, climatic conditions permit the building of plants at low initial cost; labor is more efficient than elsewhere; the climate is more healthy; unlimited power is available at comparatively important quantities for all legitimate developments; the metropolitan area of Los Angeles is the natural crossways of traffic of the Pacific Southwest; new markets are daily being opened for both our raw and finished cotton. Thus there is every reason to believe that the production of raw material, fabrication of finished goods, and marketing of both raw and finished goods will progress at an ever-opening pace." (Copyright, 1922)

## DEMOCRATIC APPEAL CALLED DEMAGOGIC BY THOMPSON

CINCINNATI — Carmel A. Thompson, Republican candidate for governor, in an address here today declared that the Democratic party has fallen back upon mere demagogic appeal to elements of disorder, having failed to make any impression on the public mind with any political items they hoped to make issues in this campaign. He said in part:

"Our Democratic friends first tried to raise the issue of Newberryism. This was abandoned as hopeless after Michigan voters repudiated the issue.

"The attempt of Mr. Cox to raise from the dead the ghost of the league of nations issue this year, was squelched by practical Democratic leaders in their plot for putting it forth as the basis of the 1924 campaign."

# THEORY IN HALL, MILLS CASE

(Continued From Page One)

cident as he struggled to defend Mrs. Eleanor Mills against the insane fury of a jealous woman and her confederates.

The couple whose bodies were found near Phillips farm on September 16, were either lured separately from their homes two nights previous or were kidnapped as they made their way to a rendezvous and the woman was murdered after the murder was accidentally shot. This occurred in a vacant building, not far from where they were found dead.

This after a thorough investigation with a trained staff of operatives, is my theory of the murder. Everything we have been able to discover concerning the crime, deep probes into the past lives and relationships of the principals, sitting of the contradictory tales told by certain persons intimate with the slain couple, all point in this one direction.

## PROMPTED BY JEALOUSY

The murder was instigated by a jealous woman. My men have absolutely discarded the possibility that the crime was an accident and place little credence in any black-mail theory. Each clue as we unearth it a whole month after the finding of the bodies, a month of shameful inactivity on the part of officials, turns the finger of suspicion always towards this jealous woman. We have only scratched the surface in our search and no name among those involved in the tangle has been eliminated. We will proceed regardless of what the authorities may do, until the murderer of Charlotte Mills' mother is brought to justice.

Poor Charlotte, pitiful little child victim of the grim tragedy, her girlish dreams destroyed, her future a blank toward which she danced in a mad whirl of excitement. She cannot rest, or relax. She has suddenly become mature.

Robbed of the loving mother who was "more of a sister" to her, Charlotte has aged overnight. No one can take her mother's place in her life, but Charlotte Mills can be avenged. It may be well to give the theory of the murders, which, after a thorough search into the lives of the principals, as Charlotte has helped me know them. I have evolved. Later I will show how each fresh scrap of evidence which our men have dug up fits in like a bit of a picture puzzle, until the portrait is nearly complete.

## NOT THEIR NIGHT

The murderer we cannot name—yet. A few more links in our chain, and we hope to present the prosecutor with the facts.

Thursday night, the night of the crime, was not "their night." Dr. Hall and Mrs. Mills were accustomed to meet Tuesday, Friday and Sunday. This, to my mind, establishes the fact that their meeting on the night of the murder was unexpected by either. Charlotte Mills tells me that her mother received, thru a neighbor, Mrs. One, a message to call Dr. Hall Thursday afternoon. She refused the neighbor's offer of use of her telephone and ran to a little corner store. What she said, no one knows but she left home about 7:30 that evening and

was never again seen alive by the members of her family.

As to the doctor's movements just before the crime, we are left in doubt, thru reticence of Mrs. Hall and her family to permit a thorough investigation. But we know enough to believe Dr. Hall was agitated.

I have reason to believe a member of the Hall household will testify the doctor was greatly disturbed.

Now, what came next? We have the testimony of a witness who saw Mrs. Mills board a car, headed out towards the park where she and Dr. Hall were wont to meet and discuss poetry and nature and the things they loved. Mrs. Mills left the car three blocks before reaching the usual stop at Easton-ave. She walked slowly, hesitatingly looking behind her occasionally. Why did she act this way?

And the doctor? We are not absolutely certain, but we have been told by supposed witnesses that he came along on foot a few minutes later, hands in pocket, head down, hurrying.

## SWALLOWED UP IN DARKNESS

The darkness of the night, that hung over Buccleuch Park swallowed them up and from then on it was just conjecture as to what went on until the bodies, side by side, were found beneath the crabapple tree.

But my investigations lead me to believe that some such scene took place:

Mrs. Mills was seized and pushed into an automobile. She was taken to a vacant building, not Phillips farm, but in a little group of houses northwestward of the crabapple tree and some distance removed. There she was thrown into a dark room.

Next Dr. Hall was captured and taken there. The couple were confronted with indisputable evidence of an "affair."

The doctor sprang to Mrs. Mills' defense. He was thrown down. He arose, fighting and was shot thru the head. They probably had not intended to kill him. Then doubly enraged, the woman, the mysterious woman, who planned the crime, wreaked terrible vengeance upon poor little Eleanor Mills, enfeebled thru a serious operation and weighing but 100 pounds. Mrs. Mills was small but she fought for her life. She received bruises and scratches in the fight. She was shot three times and afterwards her throat was cut.

The bodies were then taken to the crabapple trees and the letters scattered so that they might seem to have been murdered in a lovers' rendezvous.

This, as I see it, is probably what happened about 9:30 or 10 o'clock.

On the night of September 14. Tomorrow, I will go into detail as to our search for the perpetrators of this fiendish "execution" and will tell all we have been able to discover.

(Copyright, 1922)

## FINED DOLLAR A WORD

NEW YORK — Morris Leveritz was fined \$1 a word by a magistrate today for a five word remark he was charged with having made in reference to Miss Gladys Edwards when a strong wind was blowing in Central Park. The charge was disorderly conduct.

## MONTE CRISTO

# U. S. FACES RUIN, M'ADOO SAYS

Declares Disaster Brought to Nation by G.O.P.

## 'BILLIONS LOST BY FARMERS'

Claims Export Trade Reduced Over 40 Per Cent

BILLINGS, Mont. — (Associated Press) — William G. McAdoo in a speech last night said reduction of farm credits "by the present administration in co-operation with the powerful influences of Wall Street and the blighting effects of President Harding's policies of deflation and normalcy have reduced the country from a condition of unexampled prosperity to a state of appalling disaster."

Mr. McAdoo asserted that the reduction of farm credits under the Republican administration had forced the rapid sale of farm products and livestock to such an extent that the value of those products for the entire country had been reduced from \$14,000,000,000 in 1919, to \$5,500,000,000 in 1921.

The former cabinet officer said business depression had followed the reduction in consequence of which the farmers and stockmen were "never before in such an unfortunate situation as they are today."

"Linked with this to the disadvantage of the farmer and stockman," Mr. McAdoo went on, "was the inauguration of the Republican foreign policy which has reduced export trade more than forty per cent during the first year of the Republican administration."

In addition the speaker said, the Esch-Cummings law had raised railroad rates to a point where all chance for the farmer and the stockman to get even a meagre profit for their toil was taken away."

Mr. McAdoo advocated "a constructive policy for the restoration of farm prosperity" and recommended "a system of agricultural credits to furnish farmers and stockmen ample credit at reasonable rates, constructive legislation for the protection of farm co-operatives and an elevator and warehouse system for grading and storing grain at reasonable cost and storing of grain in Republican international policies" as remedies for "bringing back prosperity."

## WOMEN ARE FINED FOR FIGHTING OVER DOG

CINCINNATI — Two women from West Virginia were in police court today for exchanging black eyes over a poodle dog.

"Where you come from you at Lord knows I can't run," Mrs. Violet White told Judge Ball.

"Where you come from you always stand up and fight," said Mrs. Mabel Bartlett.

"Ten dollars and costs for each of you," said the judge.

# Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Chas. H. Fletcher* on the wrapper all these years just to protect the coming generations. Do not be deceived. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

## WERE WE HANDED A LEMON?

**C**HARGES have been made that the fuel law and regulations set up recently by the Davis administration would drive Ohio coal out of the state and that the fair price list fixed a maximum higher, in some instances, than the price previously charged at mines. It also has been hinted that politics played a big part in the proceedings.

Now Lima coal dealers are charging openly that they are not able to get Ohio coal; that the Davis regulations have put everything up in the air to the extent that neither dealers nor the public have confidence. Dealers can get coal if they pay the price for it. Likewise householders can get it if they pay the price dealers must charge. Some retailers are advising patrons to buy only for their immediate needs, but explain to them they will not attempt to forecast the future.

So far, Lima has seen no direct benefit from the Davis legislation. It may come in the future and again it may not. If the contention that coal will be driven out of the state and that politics has been played, the public may suffer. Time alone can determine definitely whether we have been handed another lemon by the administration that specialized in them.

## CONSIDER YOUR FUTURE

**C**ONSERVATIVE business men have long since ceased to worry about Lima's future. That is assured. It is practically as certain that Lima will grow by leaps and bounds as it is that the sun will rise in the heavens tomorrow.

With this certainty—or as near a certainty as humanity can be—what about your future? Have you prepared for it? Are you looking ahead for the little ones you have about your knee in the evening or the ones you hope to have some day?

During the last three or four years you have seen some important additions to this city. They have come gradually and you have not been so strongly impressed by them as you would have been had they come in one boom. But they are here and others are coming.

Business the country over is preparing for better times. There are indications everywhere. The big interests, our real barometers, would not be making the preparations they are if they had any doubts about the future. Why not get ready to ride along with the tide?

When the few plants here that have been on a part time basis open up in full blast as they will soon, there will be the greatest housing shortage the city has ever seen. This, without the added requirements new factories will bring. Another concern, one which will rank with the largest in the city, has practically decided to come here. Employment of 1,400 men in this plant alone is probable.

It no longer is a gamble concerning real estate in Lima. Investment in good property is sound business and almost certain to not good returns. If you are not a home owner, you will profit by going into the market without delay. If you buy wisely. Now is the time to prepare for the future. If you wait for the big demand for properties, it will be costly.

## CRIME

**T**ODAY, between 700 and 1000 Americans are being sent to prison. That is the daily average.

It starts you. More startling is this, from former Governor Martin G. Brumbaugh of Pennsylvania: "Seventy-one per cent of all the criminals now confined in institutions throughout the United States are of juvenile age."

Brumbaugh blames "lack of proper physical training of children while they are attending school."

Physical training makes clean bodies, which in turn make clean minds and moral character. Gymnasiums and outdoor sports, but for excess nervous energy, are the best "reformatories."

## PUNISHMENT

**T**EETH should be put in laws making parents responsible for wrong conduct of their children. So urges District Attorney O'Brien, addressing the Jewish Big Brother Association of Boston.

As emphasized previously, something eventually will have to be done along this line. American youth these days is the target of

many hot shots. The trouble generally is with parents, not with their offspring.

## MIGHTIER

**W**E aren't quite as peaceful as we imagine. A government report says that about 13,000 American wage earners are employed making typewriters and supplies, against 10,000 making ammunition and 5,000 making firearms.

Since typewriter is the modern pen and ammunition and gun the modern sword, the saying that "the pen is mightier than the sword" will bear checking up on its industrial side.

## TURKEYS

**T**URKEYS soon will be drawn on schoolroom blackboards. No Thanksgiving or Christmas complete without them.

So genuine regret will be felt nationally at the government report that in 10 years the number of turkeys on American farms decreased from 6,595,000 to about 3,627,000. Is the turkey in danger of extinction? Important issue. To children the fate of turkey is more important than the fate of Turkey.

## SHORT ONES

Breach of promise is a chorus girl's long suit.

What makes a galosh madder than a long skirt?

One heavy problem is "Shall I put on heaven?"

There is no noticeable decrease in the signs of taxes.

The annual turkey shortage has just been announced.

Almost time to fall out with that girl. Christmas is coming.

Pola Negri says she likes Charlie Chaplin. Run, Charlie, run.

"How do you eat olives?" asks etiquette hints. One at a time.

Russia has a big standing army. Greece has a big running army.

Chinatown bank robbers got \$222,004.93, the \$4.93 being war tax.

Strange noises coming from a Florida swamp may be a radio concert.

Every man's objection to his quarters is he wishes they were halves.

Men running for office are nice to women. Most women control a vote and a voter.

Tina travels with 225 trunks, but we'll bet even then his wife sticks things in his pockets.

New York youngster talks five languages; but that's nothing, most babies speak 10 or 12.

Wouldn't it be great if a Palm Beach suit brought enough to get an overcoat out of hock?

Michigan man who wondered if thieves would get \$1640 hidden in a tire found they would.

Steinmetz says four hours is a day's work. The boss says it is hard to get a man to work that long.

Dartmouth's president may be right about too many going to college. Out of thousands only eleven make a football team.

## ABE MARTIN

Bradley, the Phil Amour of this town. Commuting from Shawnee. To the post, where saluted by a delayed reading of the natural gas meter. Having received one anon for the artificial. Met Curly Strayer marketing at Dorsey's and we argued over the beautiful radishes there displayed. He saying his trade did not demand them at this season; preferring onions. Into The Lima Trust, resembling a department store, like Roy Dunn's emporium across the avenue. Would like a connection at that money. But its directors too blooming cheery and hospitable, about not recognizing my sterling native worth.

To the Western Union, and sent my broker a rush gram to sell Ohio Oil. Another mistake, mayhap. Thence to the office, where came many anon in a short morning of japeries for office or hotel lobby. But not for exclusive State-st colony chateaux. Out, discoursing with Bert Garrigus the resigned captain of firemen, an old printer. And heard Joe Cassidy had been in town. Strolled along high-st with Charles Herbst, the expert man's tailor. Who says four buttons on a coat is the ultra trim thing. Must have four on my sleeves.

Lunched at home, alone. My wife being at the Princess. An unusual event. Which makes me happy there at. Taxied down with the leading physician of the city. You're right the first time. Came Billy Brennan, the National

Cash Register lecturer. Who pleased Rotarians a few months ago. But who bossed me around scandalously when foreman of the Gazette. In Seanyer, Ohio. A cruel printer, but a noble orator.

Abroad to a manicure at the Holmes-bik Grecian parlors. And found them moved; to fight the Turks, methinks. Thrace was never like Lima, thank-gawd.

These taxes of \$2 per thousand mean little in my young life. And since Paul Landis is for 'em, they get my vote. M'seur Lester, of the Lima House, home from Chicago. Making me sad, for he will be a cripple for life, he tells me.

In the evening, to the new Faurot. To greet "Susie," and didn't recognize her until the lull in the first act. Met her while East last spring, when the Ritz quartette was in the cast. And the lusty basso made love to the Aunt instead of the French tenor. The historic old playhouse all merry and gay, with the Ben Hur curtain back on the job. Skirts sure are coming down. And two old codgers who always take the first row, went to Manager Clark and wanted their money back. Bert Coleman sat immediately behind me, and complained my curly locks interferred with the tracing on the lace hose of the bride-to-be.

Home, to lunch on peanut butter sandwiches, and Bud mixed with Jamaica ginger. And so, to bed.

## BRONCHIAL REFLECTIONS

Doctors these days are looking in-

to the bronchial tubes with the bronchoscope, and finding odds and

ends lodged therein, such as buttons, safety pins, teeth, portions of artificial dentures, and successfully

removing these, accidentally inhaled or inhaled foreign bodies so that happy recoveries are often obtained which would have been out of the question a generation ago.

The use of the bronchoscope, however, is a rather serious expedient resorted to in grave or desperate cases and requiring exceptional skill on the part of the doctor. If we

had a bronchoscope as simple to use as the stethoscope, we should hear much less of "bronchitis" and "bronchial trouble," for with such a diagnostic aid universally available it would soon become apparent to everyone that all that produces

cough and soreness or pain in the chest is not bronchitis by any means. When the chest begins to whistle or wheeze there is some ground for incriminating the bronchial tubes.

Indeed, the doctor with his naked stethoscope or his lightly clothed ear listens for whee fine whistling or wheezing and hears such noise before he can positively determine that the patient has bronchitis. A good half of all the cases of alleged bronchitis or "bronchial trouble" have never altered a single

wheeze and are incorrectly diagnosed, whether by the patient himself or by a doctor who uses intuition or second sight rather than ask the patient to bare the chest to the waist for examination.

Acute bronchitis is a very grave illness in the elderly or the very young, the seldom fatal in vigorous adults. It is often the sequel of coryza, unfortunately well known as "cold in the head," but no more attributable to cold or exposure in that sense than diphtheria is. Some times acute bronchitis prevails as an epidemic independent of influenza or other specific respiratory infection. But in most cases it is a complication or a feature or a sequel of some specific infectious disease such as measles, whooping cough, typhoid fever, malaria, or tuberculosis. Persons much exposed to "infectious" weather and to elements are much less subject to bronchitis than those who are carefully kept indoors or who take extravagant precautions to "protect" themselves from the weather. To think of acute bronchitis as a "cold settled on the chest," as our benighted ancestors did, is a childish habit which folks

## POEMS YOU WILL ENJOY

By Berton Bralley

## HISTORY

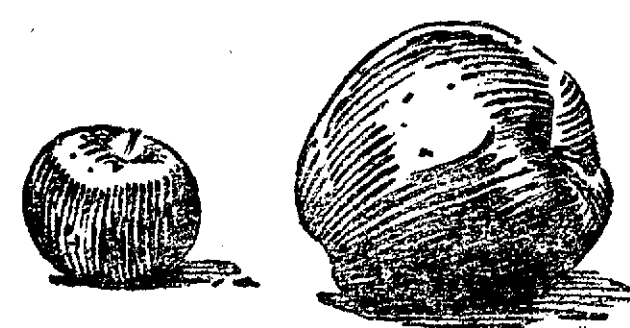

When you were seven and I was eight,  
We used to meet at your front-yard gate.  
And I carried your books to school for you,  
Tho the boys would tease me a lot, I knew:  
But I bore their jeers with a courage stout.  
For you were worth being teased about,  
And I felt, with a sort of a warm delight,  
You were my lady, and I was your knight.

When I was twenty and you nine-teen,  
The days flowed by in a way serene,  
With comradeship as our slender tether,  
We danced and chatted and walked together:

Until, one night, in a whirl of bliss,  
Our young lips met in a long, long kiss.  
And we knew, as the wonderful moon shone bright,  
You were my lady, and I was your knight.

You're sixty-two and I'm sixty-three,  
But whenever I look at you I see  
The girl of seven—the lass, nineteen,  
And my heart still laps with an ardor keen;  
I know the thrill that I used to know  
When I squired you patiently, long ago,  
And, as then, (tho' our hair is white),  
You are my lady and I am your knight.  
(Copyright, 1922.)

MONTE CRISTO

## Oats Differ

Like apples—be careful

Some oats are large and luscious. But a bushel of choice oats yields only ten pounds of such grains.

Those grains alone are used in Mother's Oats. That's the reason for the delightful flavor.

Some oats are small and stunted. They yield insipid flakes. Those oats are all discarded in this brand.

No food you serve to children can compare with oats. There are 16 needed elements in oats—body builders, vim-producers, minerals, etc. Every pound yields 1810 calories of nutriment.

Oat flakes, above all foods, should be served their best. You want children to love this dish.

Then be careful. Ask for Mother's Oats, and make sure you get them.

MOTHER'S OATS

## PEN-JEL

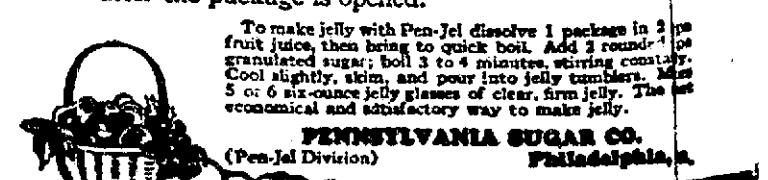

REG. U.S. PATENT OFFICE

Makes the Jelly Jell in six minutes

Think of the wonder of being able to make clear, sparkling jelly, that turns out of the glass firm and clean-cut, in six minutes by the clock!

That's what Pen-Jel makes possible. You can use any kind of fruit juice, from peaches, or cherries, or pineapples—fresh, canned, or dried fruits—on be certain of perfect results. And that's not all—Pen-Jel makes the most delicious jams and marmalades in 30 minutes.

Pen-Jel is just the right combination of pure bit pectin—the element in some fruits which causes their juice to jell—in dry powder form, pure fruit tartness, and the finest cane sugar. Keeps indefinitely on after the package is opened.

To make jelly with Pen-Jel dissolve 1 package in 2 cups fruit juice, then bring to quick boil. Add 1 cup granulated sugar; boil 3 to 4 minutes, stirring constantly. Cool slightly, skim, and pour into jelly tumbler. 5 or 6 six-ounce jelly glasses of clear firm jelly. The best economical and satisfactory way to make jelly.

PENNSYLVANIA SUGAR CO. (Pen-Jel Division) Philadelphia, Pa.

Genuine Aspirin

SAY "BAYER" when you buy Aspirin

Unless you see the name "Bayer" on package or on tablet, you are not getting the genuine Bayer product prescribed by physicians over twenty-four years and proved safe by millions for colds, headache, toothache, earache, neuralgia, lumbago, rheumatism, neuritis, and for pain in general. Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost few cents. Drug stores also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer. Manufacturer of Monoaceticacidester of Salicylicacid.—Adv.

Topics of Interest Discussed For School Students

## SHALL DRY LAW BE CHANGED?

As the November elections draw near it becomes plainer and plainer that prohibition still is a political question of much interest in this country.

Ohio, Illinois and Massachusetts will decide by vote whether or not to permit more than 1-2 of 1 per cent alcohol in those states.

Even if they vote "yes," prohibitionists say it will make no difference, because the federal law fixes 1-2 of 1 per cent as the limit. The anti-prohibitionists, however, say a vote of "yes" will show anyway that the people do not like the federal law, which will be a step toward getting it changed.

In all the states where congressmen are to be elected, the candidates have been classified on one side or the other.

Nobody argues for the return of the old system, but the prohibitionists say it will come back, sooner or later, if the "antis" win. They want to allow people to drink wine and beer in their own homes, if they choose. If they could do so, the "antis" assert, it would be easy to suppress stronger drinks, which they point out, are consumed in great quantities now because it is impossible to get anything else and a "home dry" law.

## MANY SHIPS INSIST ON DRINKS

Ship Agency General Daugherty decided that ships from foreign ports may not bring drinks within three miles of the American coast, even under lock and key, all vessels owned by the government have been "dry," nor will the United States Shipping Board, which manages them, seek any change in the agency general's decision.

But American ships owned by private companies insist they have a right to enter and leave our ports with liquor on board, so long as they do not try to land or sell any of it within the "three-mile limit."

The International Mercantile Marine and the White Star Line have obtained orders from a United States judge forbidding officials from interfering with them until they have had time to see if the supreme court at Washington agrees with the attorney general.

Foreign companies which own ships visiting the United States take the same position, and the French line even threatens to appeal to the national court at The Hague, after the United States government has granted a condition which imports with the freedom of the seas. Besides, French law compels these ships to carry wine for their crews.

## WILL ASK CONGRESS TO REPEAL

It is said upon good authority in Washington that President Harding has decided to call an extra session of congress on November 20 to vote on the ship subsidy and anti-lynching bills.

Those who favor a ship subsidy are of the view that every great nation should have, under its own flag, an adequate merchant fleet, and if such fleet cannot be operated at a profit, then the government must make a financial allowance to ship owners sufficient to wipe out their losses and leave them something over to pay them for their trouble in buying vessels at sea.

Such an allowance is what President Harding desires this country to make for our ships unquestionably running at a loss.

More countries do subsidize their merchant fleets in some cases by the payment to ship owners of large sums for carrying the overseas mails. In countries like England, where great numbers of people are dependent directly upon business which comes and goes in ships, it is a policy which has strong public support. But in the United States there is a great population living

## HAIR DON'T STOP FALLING ITSELF

35c "Danderine" Saves Your Hair—Ends Dandruff! Delightful Tonic

Don't lose another hair! Don't tolerate destructive dandruff. A little Danderine now will save your hair, thicken and strengthen it; double its beauty.

Falling hair never stops by itself! Dandruff multiplies until it forms a crusty scale, destroying the hairs, roots and all, resulting in baldness.

Your druggist will tell you that "Danderine" is the largest-selling hair saver in the world because it corrects and tones sick, ailing hair of men and women every time. Use one bottle of Danderine, then if you find a single falling hair or a particle of dandruff, you can have your money back—Adv.

far inland which does not see how it benefits by having vessels on distant oceans and which opposes being taxed to help the owners of these vessels. It is argued, of course, that inlanders, do benefit indirectly, yet there are many who cannot see it.

Consequently the ship subsidy bill has numerous opponents and it is uncertain whether it will pass or not.

Supporters of the anti-lynching bill contend that lynchings occur so frequently in the United States because the lynchers seldom are punished. And they seldom are punished, it is argued, because the people of a community where a lynching occurs are inclined to "stick together"—that is to say, if all, or many, were more or less implicated, naturally they are not much inclined to punish themselves.

So, instead of leaving the local courts to deal with lynching cases, the bill proposes to have them dealt with by the United States courts, the judge and the court officials and the jurors being citizens from places perhaps at a considerable distance from the place where a lynching occurred.

Not only is provision made for punishing the lynchers, but likewise the local officials who ought to prevent lynchings, if they can; and the county where a lynching occurs is required to pay heavy damages in money to the victim's heirs.

This bill, too, has much opposition and its fate is uncertain.

## LOOKS MORE LIKE PEACE IN EAST

Kemal Pasha and the allied powers, which interfered when the Turks beat the Greeks have signed a peace protocol.

A protocol is a memorandum on which a treaty is to be based.

This protocol was agreed on at the Mudania conference. The regular peace meeting, to arrange a treaty, probably will be held in November.

Trouble starts so easily in the Near East that it never is safe to say danger is over. This is especially true since the Turks do not like the protocol very well and continue to trespass on the strip of land near Constantinople which the English insist must remain neutral.

Still, the prospect for peace is reasonably good now.

The protocol requires Greece to surrender Thrace, as far as the Maritza river, to the allies, who, in turn, will surrender it to the Turks. All this is to take a month. Even then the Turks will be allowed to send only a limited number of troops into Thrace.

The final treaty undoubtedly will give Thrace to Turkey permanently. Also Constantinople.

The freedom of the straits, from the Mediterranean to the Black Sea, will be provided for, presumably under international control, so that the waterway may be open to the shipping of all the world.

The sultan will be required to respect the rights of the "minorities"—that is, people other than Turks, like the Greeks and Armenians—who live under his rule.

## HUNDRED SECURED IN DRIVE TO ENTER MOOSE

The initiation of the first class of members obtained during the campaign being waged by Lima Lodge No. 199 L. O. O. M. to increase their enrollment to 2,000, will be held at Moose Temple Thursday night.

Between 50 and 100 applicants will go thru the rites. A special dispensation to open the Lima charter for the drive was obtained for the grand lodge.

The goal set by the Moose, Harry Walters, secretary declares, is 1,000 new members in 60 days.

## Druesen-Kraft Gland Tablets

### Restore Vigor and Health!

Scientists Find That Your Glands Control Your Vital Organs, Even the Stomach, Heart and Brain! Most Ill Health Is Caused by Weakness of These Glands!

Your life and health depend on your glands! You are just as strong or just as weak as your glands! Your heart, liver, kidneys, stomach, even your brain, depend upon the vital gland secretions, and most ailments among men, women and even children result from gland weakness! This is the most recent startling discovery of the world's foremost medical mind!

**PITUITARY**—Controls growth of body, abdominal and genitival muscles.

**PARATHYROID**—Controls muscles and nerves.

**MAMMARY**—Control growth of breast.

**PANCREAS**—Control sugar output.

**CARTOID**—Nerve and tissue builders.

**PINEAL**—Controls brain development.

**SALIVARY**—Essential to digestion.

**THYROID**—Controls growth of tissues and regulates heart action.

**THYMUS**—Controls nutrition and growth of children.

**ADRENAL**—Controls growth of brain, also develops sex glands and contains reserve energy in the body.

**INTERSTITIAL**—Controls sex traits. In females controls the menstrual functions. Most female ailments are caused by weakness of this gland.

**Your Most Important Glands**

These glands, upon which your health absolutely depends, are being weakened every day by care, disease, worry, exertion and the strain of modern living conditions. They supply the life and strength-giving secretions to your body, and to be vigorous and healthy you must keep these glands active. Strong. Active Glands Make a Vigorous Healthy Body!

After years of research and experiments, a way to rebuild and strengthen the glands and regulate their activity was discovered at Leipzig in the remarkable

**DRUESEN-KRAFT (Youth-Gland) TABLETS**

composed of the vital ductless gland secretions. DRUESEN-KRAFT has been prescribed by Europe's foremost doctors, and so quick and remarkable are its results in restoring strength and energy that thousands of men and women are turning to this easy way to regain health by simply taking three DRUESEN-KRAFT tablets daily.

DRUESEN-KRAFT quickly, easily and safely supplies the vital gland secretions to the system, rebuilding the glands to normal strength. The effects are quick and amazing! Advertisers free from Druggists or direct from western offices—DRUESEN-KRAFT LABORATORIES, Ltd., 10 Randolph St., Chicago, Ill. Designate "male" or "female" when ordering. One week also \$1.25.

**SMITH KEEPS TODAY**  
As the crimson ray of blood ap-  
peared in the tragic history of the  
Flaming Jewel, the priceless gem first  
found in the royal jewel cabinet of  
the Grand Duchess of Esthonia by the  
great international thief,  
Climch, and later stolen from  
him by Mike Clinch. Clinch  
Quintana by the name of the  
boarded in the Adriatic for the edu-  
cation of his beautiful step-daughter,  
ED STRAYER.  
Two men both seeking the gem, ap-  
peared in the Flaming Jewel, the other  
was Quintana, the other  
was DARRAGH, who, under the  
name of SMITH, had sworn to restore the  
gem to the beggared countess.  
The gem was found in the hands of  
the man who had been tortured. Two  
of the men, bribed by Quintana, steal  
the gem which contains two bars of  
gold, but which they think is  
merely a stone. One of them,  
the man who had been tortured, his com-  
panion, Jake Kloon, but he, in turn,  
is robbed by Quintana.

**GO ON WITH THE STORY**  
(CHAPTER II)  
When Quintana disappeared  
among the tamarisks, Leverett ven-  
tured to rise to his knees. As he  
approached there, peering after Quin-  
tana, a man came swiftly out of the  
forest behind him and nearly stum-  
bled over him.  
Recognition was instant and mu-  
tual as the man jerked the trap-  
door to his feet, stifling the muf-  
fled yell in his throat.  
"I want that packet you picked up  
on Clinch's veranda," said Hal  
Smith.  
"My God," stammered Leverett.  
Quintana just took it off me. He  
hasn't been gone a minute—"  
"You lie!"  
"I ain't lyin'. Look at his foot-  
marks there in the mud!"  
"Quintana!"  
"Yes, Quintana! He took my  
gun, too!"  
"Which way?" whispered Smith  
urgently, shaking Leverett till his  
eyes widened.  
"Drowned Valley." Lemme  
goes—I'm chokin'—"  
"You rat!" he said, "If you're ly-  
ing to me I'll come back and settle  
our affair. And Kloon's, too!"  
"Quintana shot Jake and stuck  
him into a sink-hole!" snivled  
Leverett, breaking down and sob-  
bing, "—oh, Gaud—Gaud—he's  
gone!"

## PATTERN FOR TODAY

A NEW VERSION OF THE  
STRAIGHT LINE DRESS  
This model has several  
outstanding style features. The  
deep armholes and over sleeve,  
floury inserted pockets trim the  
front. The neck line has the popu-  
lar shoulder to shoulder effect.  
This pattern is cut in 7 sizes: 34,  
36, 38, 40, 42, 44 and 46 inches  
bust measure. A 38 inch size re-  
quires 5 yards of 40 inch material  
for the dress, and 1 1/2 yard of 32  
inch material for the Tucker. The  
width at lower edge of the dress is  
34 inches.  
Pattern mailed to any address on  
receipt of 10c in silver.  
Pattern No. 1010. Size 36 inches

longed to Her Highness the Grand  
Duchess Theodora of Esthonia.  
"Very interesting. More interest-  
ing still—along comes Don Jose  
Quintana and his celebrated gang of  
international thieves, and he is  
from the Grand Duchess of Esthonia  
the Flaming Jewel and all her rub-  
ies, emeralds and diamonds. Yes?"  
"Certainly," said Quintana, with a  
polite inclination of acknowledgment.  
"Bon! Well, then, still more inter-  
esting to relate, a gentleman named  
Climch helps himself to these fam-  
ous jewels. How very careless of  
you, Mr. Quintana."  
"Careless, certainly," assented  
Quintana politely.  
"Well," said Smith, laughing,  
"Climch was more careless. Still, the  
robber baron, Sir Jacobus Kloon,  
swiped—as Froissart has it—the Es-  
thonian gems, and, under agree-  
ment to deliver them to you, I sup-  
pose, thought better of it and at-  
tempted to abscond. Do you get me,  
Mr. Quintana?"  
"Gee!"  
"Yes, and you got Jake Kloon, I  
hear," laughed Smith.  
"No."  
"Didn't you kill Kloon?"  
"No."  
"Oh, pardon. The mistake was  
natural. You merely robbed Kloon  
and Leverett. You should have  
killed them!"  
"Yes," said Quintana slowly, "I  
should have. It was my mistake."

**ADVENTURES OF THE TWINS**  
**MAGIC**  
Green Wizard Comes to Help Twins as Bad Fairies  
Near  
By Olive Roberts Barton

He strode up and down in the tree-tops.  
The Green Wizard had given the  
magic automobile to the Fairy  
Queen for her birthday.  
And when Light Fingers stole it  
he was as mad as anything.  
It was one of the Fairy Queen's  
cousinhood who told him Nancy and  
Nick had gone to get it back and  
you may be sure the Green Wizard  
was pleased.  
He strode up and down in the  
tree-tops where he lived, and smiled  
to himself.  
"I know those Twins will get the  
automobile back!" he said cheerfully.  
"They are too smart for any-  
thing! But at the same time I'll  
keep my eyes open and help them.  
A little magic might not come  
amiss."  
The Green Wizard was remark-  
able. He had eyes that could see  
as far as the Moon—and beyond.  
He knew exactly how many spoons  
full of sugar Mr. Peersabout, the  
Moon-Man, had in his tea and how  
he liked his eggs for breakfast, and  
all about him.  
He could see as far as the Milky  
Way, of course, and it was he who  
sent the apple-tree fairy to the sky  
in his elevator the time Light Fin-  
gers tried to throw tacks in front  
of the automobile.

Now he was still on the lookout  
and he saw Light Fingers and  
Comet-Legs coming after the Twins.  
He also saw the magic automobile  
skid in the mud and stick there.  
"Oh, oh, oh!" Nancy cried.  
"Here comes those bad fairies, Nick.  
What shall we do?"  
"I'll help you," called the Green  
Wizard. "I'll throw my enchanted  
sheet over you and the car, too, and  
no one can see you then, for every-  
thing it touches becomes invisible."  
It all happened just as he said.

"Signor Quintana, it is human to  
the human crook to err. Sooner or  
later he always does it. And then  
the Piper comes around holding out  
two itching palms."  
"Mr. Smith," said Quintana pleas-  
antly, "you are an unusual agree-  
able gentleman for a thief. I regret  
that you do not see your way to an  
amalgamation of interest with my-  
self."  
"As you say, Quintana, men, I am  
somewhat unusual. For example,  
what do you suppose I am going to  
do with this packet in my pocket?"  
"Live," replied Quintana tersely.  
"Live, certainly," laughed Smith,  
"but not on the proceeds of this  
coup-de-main. Now pass! I am go-  
ing to return this packet to its right-  
ful owner, the Grand Duchess Theo-  
dora of Esthonia. And what do  
you think of that, Quintana?"  
Quintana smiled.  
"You do not believe me?" in-  
quired Smith.  
Quintana smiled again.  
"Alions, bon!" exclaimed Smith  
rising. "It's the unusual that hap-  
pens in life, my dear Quintana. And  
now we'll take a little inventory of  
these marvelous gems before we  
part. . . . Sit very, very still."  
Quintana—unless you want to be  
stiller still. . . . I'll let you take a  
modest peep at the Flaming Jew-  
el—? busily unwrapping the pack-  
et—"just one little peep, Quin-  
tana—"  
He unwrapped the paper. Two  
cakes of sugar-milk chocolate lay  
within.  
Quintana turned white, then deep-  
ly, heavily red. Then he smiled in  
ghastly fashion.  
"Yes," he said hoarsely, "as you  
have just said, sir, it is usually the  
unusual which happens in the  
world."

## Bakers Bake It For You

—no need to bake at home

HERE'S your old-time favorite  
H—full-fruited raisin bread  
with at least eight tempting raisins  
to the slice—already baked for you  
by master bakers in your city.

Simply 'phone your grocer or a  
neighborhood bake shop and have  
a fresh loaf for lunch or dinner to  
delight your folks.

We've arranged with bakers in almost  
every town and city to bake this full-fruited  
raisin bread.

Made with big, plump, tender seeded  
raisins. The raisin flavor permeates the  
bread. You've never tasted finer food.  
Order a loaf now and count the raisins.

Raisin bread is a rare combination of nu-  
tritious cereal and fruit—both good and  
good for you. Serve at least twice weekly  
to get the benefits.

Use Sun-Maid for home cooking of puddings,  
cakes, cookies, etc.

You may be offered other brands that you  
know less well than Sun-Maid's, but the kind  
you want is the kind you know is good. Insist,  
therefore, on Sun-Maid brand. They cost no  
more than ordinary raisins.

Mail coupon for free book of tested "Sun-  
Maid Recipes."

## Sun-Maid Raisins

The Supreme Bread Raisin

Your retailer should sell you Sun-Maid Raisins for not more than the following prices:

Seeded (in 15 oz. box) 15c—20c  
Unseeded (in 15 oz. box) 15c—18c  
Seeded and Seedless (11 oz.) 15c

No mashed to a tree top.  
And bounded for a putt.  
And when he got thru sinking  
He holed out a walnut.

If Batting Siki and his manager do not come to America as per their promise to Tex Rickard, that boy may be instrumental in having them barred from the country for good.

The international lawn tennis tournament in Paris, the latest of October has been postponed.

Recent "Big Three" events may make it impossible for Harvard and Centre college to meet again after next Saturday, when they look up in their third game. The crowd is expected to number 10,000.

Now that those Giants have received their portions in the world series which it is wondered whether it will provide a taste for more.

He stood upon the sidelines.  
Watching up the scores.  
A fumbled ball rolled into him  
Now he marks no more.

Two years the critics and the Baltimore Orioles were not to be taken into a major league series. But they went out and up to the top of the league and now they are in the hands of a series to New Haven of the Eastern League, again proving that the world has a special taste for the sport of baseball.

Other big grid games, Saturday will be between Iowa and Illinois, Indiana and Wisconsin and Tennessee and North Carolina.

Johnny Buff, who recently lost his double title, leading and the weight champion, is the most remarkable belt holder. He won both at the age of 24.

GEORGE SISLER SAYS YANKEES PLAYED  
IN WORLD SERIES BELOW FORM

George Sisler, selected as the most valuable player in baseball, picked the New York Yankees to beat the Giants.

Also practically every other expert in the country, George was made to look very bad by the Yankees losing four straight.

However, George need not worry over the failure of the Yankees to come through. Just prior to the series 12 players on the Brooklyn team in the National League were asked for an opinion. Nine of the 12 said the Yankees would win easily.

**MADE PREDICTION.**  
"I predicted that either the New York Yankees or the St. Louis Browns would beat the Giants in a short series. Despite the downfall of the Yankees I stand on the statement that the Browns could have turned the trick," says Sisler.  
"The Yankees have great strength but seldom make use of it. Show thinking has kept them from being a remarkable club. The Yankees during the season are either very good or very bad. In the series they were very bad."

Hasn't Heart to Hit  
Pretty Lady Pug

**MKEESPOT, Pa.**—With rugged hips and banded eyes, Miss Jeannine Lamar, French girl pugilist, weighed in at 115 in white fight against "knock 'em cold" Ray McCall, Pittsburgh fighter last night.  
The girl landed rights and lefts as McCall admitted he "didn't have the heart to hit the pretty lady" did his best to get punched. Her blue eyes seemed to have hypnotized McCall. Fans noted there was an unusual amount of clinching.

## UMPIRES PICK ALL-STAR NATIONAL LEAGUE BASEBALL CLUB

**BY BILLY EVANS**  
IN FOOTBALL, when an expert decides to select an all-star or all-American eleven he goes to the football officials for advice.  
In baseball, however, the gridiron game is better able to judge the worth of a player than the umpires or field judge.

On the same line of reasoning, in baseball the umpires should be very competent to pass judgment on the relative ability of the ball players.  
In order to get a composite all-star team from both the National and American Leagues, I got into touch with several umpires as possible. The umpires' list of opinion was interesting and varied.  
In only a few cases did the umpires agree on the same player, who best at his respective position.

In the National League Rogers Hornsby, Dave Bancroft and Max Carey were the only three players who received the unanimous vote of the umpires.

In selecting Hornsby for second base all of them agreed that Frisch was so good that it was a very difficult matter to draw a line of distinction.

All the umpires said that Frisch deserved a place on the team. Several suggested that he be moved to third base where he would share honors equally with Groh. On the second play they felt that Frisch was entitled to third base on the method team.

**WENT GREAT IN SERIES.**  
Groh's great work in the world series, and his fine showing late in the year, earned much consideration

for Hornsby in passing out the honors. The selection of Jake Daubert for first base is a fine tribute to that

veteran. Several years ago Jake was pronounced all in. The umpires say that his work at first this year

far surpassed the play of any other National League first sacker.

There was a wide difference of opinion as to the pitchers. It is rather interesting that three of the four pitchers selected should be left handers.

In the outfield it was just as difficult to select a trio, with the exception of Carey.

**ALEXANDER LEFT OUT.**

Some of the arbitrators favored Young of New York for right field. George Burns was also mentioned as an outfield possibility. Digbee of Pittsburgh was well liked by several. Zach Wheat of Brooklyn was also favorably considered by many.

Bill Klem, in commenting on "Red" Russell, said he is one of the most valuable outfielders that has

broken into the National League in years.

In former years Eddie Roush would have been a unanimous choice. This year he failed to qualify for a position. While all the umpires conceded his greatness, they argued his late start handicapped his work, and his failure to sign may have cost the Red's a pennant. The selection of players was made on the basis of their respective teams in 1922.

An unusual fact about the selections was that none of the officials rated the great Alexander among the first four most valuable pitchers.

A few years back Alexander would have been first choice. Just another indication of how fleeting fame is in baseball.

## ALL-STAR NATIONAL LEAGUE TEAM

PLAYER	POSITION	TEAM
Schmidt	Catcher	Pittsburgh
Riley	Pitcher	Cincinnati
Cooper	Pitcher	Pittsburgh
Donohue	Pitcher	Cincinnati
Reuther	Pitcher	Brooklyn
Daubert	First base	Cincinnati
Hornsby	Second base	St. Louis
Gron-Frisch	Third base	New York
Karnoff	Shortstop	New York
Wauson	Left field	New York
Carey	Center field	Pittsburgh
Russell	Right field	Pittsburgh

MICHIGAN FANS  
WALK TO GAME

**ANN ARBOR, Mich.**—A group of Michigan fans, who started early this week, walked to the stadium to watch the game between the Michigan and the University of Michigan.

Many Michigan fans have purchased second hand watermelons, in which to make the trip. A thousand of them will go by train. Others were leaving today expecting to go from Ann Arbor, Mich.

## OHIO-BRED CAPTAIN LEADS O. S. U.

**CAPTAIN PINLEY**  
Ohio State's new stadium will be officially opened Saturday, Oct. 21, with Michigan as the attraction.

Billy Evans' Weekly Letter  
On Doings in Fight Circles

**JOHNNY DUNDIE** is unquestionably the most versatile boxer in the country when it comes to making weight.

For years Dundie has been making weight for any number of opponents. When not making weight Dundie was giving away punishment to lightweights and nearweights.

Dundie at present holds the title of junior lightweight champion. Johnny himself says that the junior title means little or nothing. He is shooting at the real lightweight title held by Benny Leonard.

**SEEKS KILBANE MATCH**  
Incidentally Dundie is more than eager to get a chance at the featherweight title held by Johnny Kilbane. Recently Kilbane agreed to meet him at Jersey City in a no-decision bout. The match was practically a certainty until the New York Boxing Commission stepped into the picture.

Kilbane is under suspension in New York state. It seems Kilbane has disobeyed every mandate of the

boxing body looking after the sport in that state.

Dundie is a big favorite in New York. He draws down any number of big purses during the winter.

**WILL MAKE ANY WEIGHT**  
During the recent world series in New York I had a talk with Dundie. Johnny is perfectly serious in his desire to meet Kilbane.

"I held Kilbane to a draw when Johnny was at the top of his game. I ever met him again the featherweight title will be held by Dundie," said Johnny.

**WEIGHED 124-12 FOR FRESH**  
"In my bout with Frisch, when I won what is known as the New York state featherweight title, I weighed 124-12 pounds."

"I really believe I am much stronger at that weight than when I enter the ring four or five pounds heavier."

"Bring on Kilbane and there will be a featherweight champion. Neither I nor passing up a chance to meet Benny Leonard if some promoter likes the idea."

**DAVE SHADE LOSES DECISION**  
The defeat of the clever Dave Shade at Boston recently by the veteran Eddie Shevlin came as a great surprise to fight fans all over the country.

Shevlin for years has been a favorite down New England way. Seven or eight years back his admirers thought he had a chance to win the lightweight title. However, Eddie proved a bit of an in-and-out, and the impression prevailed that he was on the downward grade.

Boston decisions are not always in keeping with the work of the fight men. Some time ago a referee retired because his decision caused such a rumpus among the experts. Possibly Shade deserved a better fate.

SHEEP IN WOLF  
CLOTHING

**COLUMBUS**—Yearlings, dressed like Wolverines, rehearsed the Buckeye Varsity today for its game with Michigan Saturday.

Wolves were kept on the sidelines for fear of injuries. They followed the second and freshmen teams around the field, as they illustrated a lecture given by Coach Wilco.

Michigan plays, brought back by an Ohio scout, were put into action by the pseudo-Wolverines.

"Skull practice" was the order of the day. The Buckeyes were given a lecture on how to smother the Michigan formations, while the freshmen ran thru the play in question for illustration.

A light workout on some new shifts and a whirl at the tackling dummies was the only exertion required of the first team in today's practice.

Betting was at even money, with small odds favoring Michigan in a few cases.

**CHURCHILL ILL.**  
LONDON.—Winston Churchill, British colonial minister who was stricken at a cabinet dinner at Downing-st. Sunday night, is suffering from an attack of appendicitis. It was learned today. Physicians have not yet decided upon an operation.

Buy Graham's Lemon Cocoa Hot Water Soap—truly wonderful.

MONTE CRISTO

FUR TO FLY WHEN  
PRINCETON TIGER  
HOPS ON CHICAGO

**DEFEAT** always riles the Princeton Tiger. That is why Chicago is certain to see Princeton at its best when these two teams meet at Chicago Saturday, Oct. 28.

Football enthusiasts the country over await with much interest the clash between these two teams. Both will be at the top of their game. It should prove a real exchange of football greetings between the east and west.

Last year Chicago, rather upset in football, hope by defeating Princeton 9 to 6. A short forward pass and a ball goal by Romer earned the trick. It was the first time the Tigers were ever defeated on their own gridiron by a western eleven.

The meeting at Chicago this year pitched a two-year contest between the two universities. It is hinted that Princeton does not care to continue football relations with Chicago.

It is stated on pretty good authority that there will be no agreement. Since Princeton seems determined to sever relations in football, the Tigers naturally would prefer to do so after a victory. For that reason Princeton is certain to forth every effort to triumph over Chicago.

While western critics believe that Chicago has an excellent chance to repeat its victory over Princeton, the Tigers are equally confident of reversing the score of 1921. Chicago will have no Romney this year, but somehow Stagg always manages to turn out a star performer—in the back field.

True, Princeton didn't look very good against Virginia. A 5 to 0 score was the margin of the Tiger victory. The fact that Princeton wasn't able to reach the southerners' line doesn't seem to worry Coach Bill Roper. He says his team has great promise, and that he doesn't want it to come too fast.

Both teams will be minus a number of the star performers of last season. Despite this, both Roper and Stagg claim the 1922 eleven are superior to those of 1921. Neither coach is inclined to be boastful, so it seems certain that western football enthusiasts are in for some real football when Princeton meets Chicago.

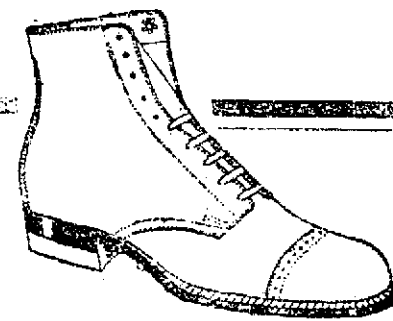

Roper is specializing in the kicking game. Stagg is also devoting much time to that department of play.

Jimmy Delaney, St. Paul, has been signed to meet Harry Greb, light heavyweight champion of America, in a 10 round decision fight at Oklahoma City November 11.

UNIVERSAL TO SCORE HEAVILY WITH 'THE STORM'

(By ESTHER WAGNER)  
AMK up another red letter production for Universal—*"The Storm"*, which will be seen here. It has been chosen to a fortunate few in the tiny town of the Universal Exchange. There, without music or change of presentation it held the sort of groups who have been privileged to see it, tense and thrilled. Rather curious is the history of the story on which the picture is built.  
Langdon McCormick, who has an inventive mind, conceived an idea for a forest fire worked on the stage. He built a production, assured himself it would work and then wrote a sketch to carry the effect. There was a railroad train hurtling thru the falling trees and walls of flame, the only chance of saving the people on board being to get thru.  
The sketch had great success and the story was made into a picture. When its vogue was about dead McCormick had another idea, of a storm, and he worked it out, but it hadn't quite the punch of the forest fire.  
George Broadhurst, who writes plays and produced them, and manages a theatre so he will have a place to produce them, and the plays of other people also, saw the fire and storm effects were good; he made a proposal to McCormick that they be combined in a melodrama and he produced at his Forty-eight-st. theatre. They called the play *"The Storm"*. Helen MacKellar played the French-Canadian heroine, Manette, and the play ran a season in New York, and twenty-four weeks in Chicago. It was too heavy scenery to be taken on the road.  
Now it has been made into a picture that is bound to sweep into vast popularity. It has all the elements, suspenseful scenes, a story in which there is the eternal conflict of two men for a woman's love, bravery and audaciousness on one side, weakness and timidity on the other, with the girl as the stake.  
The story shows how Manette is moved up all winter in a cabin with her father and Dave Stewart, a woodsman, who is having an affair with her. Carl Laemmle engaged a sterling cast for *"The Storm"* with House Peters playing the rugged woodsman, Winston; Matt Moore, the city chap and Virginia Valli as Manette.

**THEATRE DIRECTORY**  
**AT THE LYRIC:**  
For the final times today, the Lyric presents *"Human Hearts"*, a Universal production featuring House Peters, Mary Philbin and George Hackathorne. Also a comedy and other features.  
**AT THE QUILNA:**  
*"The Old Homestead"*, with Theodore Roberts in the leading role, opens a four day engagement today at the Quilna theatre. Also added attractions.  
**AT THE SIGMA:**  
Connie Talmadge has the able support of Kenneth Harlan and Harrison Ford in *"The Primitive Lover"* appearing at the Sigma theatre. Also an Educational comedy.  
**AT THE FAUROT:**  
For the final times today, the Faurot presents John Gilbert in *"Honor First"*, a Fox attraction. Also additional features, including the Faurot Concert Orchestra. New program of Keith vaudeville on Thursday.  
**AT THE NEW ORPHEUM:**  
*"My Dardanella Girl"*, the current presentation at the New Orpheum theatre, with Hal Kitter and the entire company of Billy Allen favorites ends its run today at that theatre. New bill on Thursday, matinee.  
**AT THE MAJESTIC:**  
Jewel Carmen heads the cast in *"Nobody"*, appearing again today at the Majestic theatre. Also added features.  
**AT THE RIALTO:**  
*"Queen of Sheba"*, the William Fox super-production featuring Miss Betty Blithe as the Queen, opens a two day engagement today at the Rialto theatre. Also a comedy.  
**CLOSEUPS**  
It is said that more than twenty thousand people saw *"Down to the Sea in Ships"* when it was presented in New Bedford, Mass., last week. The picture was made in and around New Bedford, I believe I've

House Peters and Virginia Valli in *"The Storm"*, a new Universal feature.

told you, and they do say it has some great whaling "stuff".  
They say that when an actor is interviewed for film booking offices he is asked two questions: "Can you act? Can you fight?" They should add, "If you can't fight can you act like you could?"

**BAD COLD GONE IN FEW HOURS**  
*"Pape's Cold Compound"* Acts Quick, Costs Little, and Never Sickness  
In a few hours your cold is gone, head and nose clear, no feverishness, headache, or stuffed-up feeling. Druggists here guarantee these pleasant tablets to break up a cold or the grippe quicker than nasty quinine. They never make you sick or uncomfortable. Buy a box of *"Pape's Cold Compound"* for a few cents and get rid of your cold right now.—Adv.

**ACIDS IN STOMACH CAUSE INDIGESTION**  
Create Gas, Sourness and Pain How To Treat  
Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not to some failure to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.  
Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Adv.

**GOOD LOOKS GOOD HEALTH**  
WENDELL'S SALTS, AMBITION BRAND—that's the answer. Some of you ladies who read this may have complexion disfigured by liver spots and discolorations. It has to be, don't worry about it and don't use face lotions. Just go at once to Enterprise Store and take a large bottle of WENDELL'S SALTS. AMBITION BRAND, for only sixty cents. It will clear your complexion by helping to destroy your system the poisonous uric acid that is affecting your liver, stomach and kidneys. A poor, rough, mottled skin isn't due to the sun or weather, but to an upset condition which uric acid usually causes. Get to the root of the trouble. Don't let your good looks and health will be ruined.  
WENDELL'S SALTS, AMBITION BRAND, is a wonderful preparation for indigestion, biliousness, constipation, headache, rheumatism, nervousness, nervousness, kidney troubles—when caused by uric acid poison.  
Remember, WENDELL'S SALTS, AMBITION BRAND, is sold by Enterprise Drug Store and dealers everywhere.  
It is pleasant to take, acts quickly, and you can get to an upset condition on the first bottle purchased if diseased.—Adv.

**BETTER THAN CALOMEL**  
Thousands Have Discovered Dr. Edwards Olive Tablets are a Harmless Substitute  
Dr. Edwards Olive Tablets, the substitute for calomel, are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the work that calomel does, but have no harmful effects. They don't injure the teeth like strong liquids, a calomel. They take hold at the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes causes nausea with the gums so that strong liquids (it is best not to take calomel) let Dr. Edwards Olive Tablets take its place.  
Headaches, dizziness and that lazy feeling come from constipation and indigestion. Take Dr. Edwards Olive Tablets when you feel heavy and "peck up" the spirits. Buy and use.

**For Stomach Agony**  
Ask Your Druggist About MI-O-NA  
It Gives Relief in Five Minutes  
Your druggist will tell you that MI-O-NA is guaranteed to relieve quickly and safely, upset stomach and indigestion, or your money will be refunded. Have you gas on stomach? One MI-O-NA Tablet and the misery is ended.  
Are you bilious, dizzy or nervous? MI-O-NA will help to put you right in a day; gives relief in five minutes.  
Now, dear reader, don't go on suffering with stomach trouble. Go far—yourself; throw aside prejudice and try MI-O-NA.  
And money back if you do not get MI-O-NA is worth its weight in gold. Sold by leading druggists everywhere and by The Thompson Drug Store.—Adv.

**LEGAL NOTICE**  
Marie Maurer whose place of residence is unknown will take notice that on the 2nd day of October, 1923 John Maurer filed in the Court of Common Pleas of Allen County Ohio, his petition against her praying therein for divorce on the grounds of willful absence for three (3) years and being numbered on the docket as Case No. 10723 and that who is required to answer to said petition within six weeks from the date of this first publication judgment may be rendered against her.

# STOCKS RISE ONE TO 19 POINTS

List Turns Heavy, However, Following Substantial Gains

**LIBERTY BONDS**  
U.S. 4 1/2% 100.00  
U.S. 4 1/2% 100.00  
U.S. 4 1/2% 100.00  
U.S. 4 1/2% 100.00  
U.S. 4 1/2% 100.00

**NEW YORK**—Stock prices moved upward in rapid fashion at the opening of the market today in response to a broad demand for railroads, equipment and copper shares and a remarkable bullish demonstration in National Biscuit which rose 17 points to 245, a new high record. Mexican Petroleum which was the individual feature yesterday, opened at 227 1/2 up 1-2 and then advanced to 232. Pan-American, which opened higher and then slipped, moved up 3 points to 14 1/2. Lehigh Valley moved up 3 points to 14 1/2. The Atlantic Coast line led the group, each at gains of one point, each at gains of one point, each at gains of one point.

Except in the case of National Biscuit, which dropped 10 1/2 points from its early high, little profit-taking was apparent in shares in the general list which either held steady or continued their upward course. Heavy speculative buying of stock to rebound from 222, its low of the morning to 225, its new high record, while Standard Oil of New Jersey extended its gain to six points. Marked advance also was noted in the high priced tobacco group, American Tobacco improving five points, B stock 4-4, Lorillard 4 and 1/2. The other shares which registered marked gains before noon were Fisher Body and United Fruit. Call money opened at 3 per cent.

Further speculation in high-priced stocks resulted in some substantial gains in the first part of today's stock market. The whole list moved higher, reflecting realization of a weakened technical condition. Sales approximated 1,000,000 shares.

In these days of learning when stock speculators become wise to the fact that stock dividends do not mean an increase in cash dividends, or, in other words, that the only reason for a stock dividend is the exchange of one piece of paper for several other pieces, the calling of meetings for the authorization of splitting up stocks is to arouse enthusiasm.

The announcement by the Vacuum Oil company yesterday that it had called a meeting of stockholders for Dec. 2 to vote on a proposal to increase the capital stock from \$15,000,000 to \$70,000,000 and to reduce the par value from \$100 to \$25 per share with plans to declare a 300 per cent stock dividend if the proposal is proved, didn't create any excitement.

Speculators had knowledge that the announcement was forthcoming and had an adverse effect on the stock market. The Vacuum Oil company, and several others of the Standard Oil companies. Vacuum closed the day with 27 point drop, while Standard Oil of New York, which recently declared a 20 per cent stock dividend, advanced 45 points. Prairie Oil & Gas was next with a 25 point decline and Prairie Pipe Line down 10 points.

The stockholders approve the "plan" and the company will pay out the new shares on the basis of the present stock. The distribution of \$45,000,000 of the stock will be required for the payment of the dividend. The total issued capital of the company will then be \$60,000,000, with \$1,000,000 in stock held in the treasury. The unissued stock, it is understood, will be distributed to the shareholders under a plan which will be before the stockholders at a later meeting.

**STOCK AND GRAIN GOSSIP**  
Independent action in the so-called Mexican issues may continue for a while. The bull market in stocks is nearing culmination for the present and more particularly in the oil section of the list.
